

# VACON® 100 INDUSTRIAL

## One drive - many industries

VACON® 100 INDUSTRIAL is the right choice for almost any kind of drive application across various industries. It offers great versatility of features and a broad range of hardware variants. The easy-to-use and robust motor control is ideal for constant power/torque applications and improves the reliability and efficiency of your AC motor type.

- Constant torque handling with capacity for high overload and advanced control functions
- Motor control: Open-loop control with frequency, speed, and torque reference, advanced sensorless control mode
- Many advanced functions for motor control setting, such as load drooping
- Supports solar pump application with highly advanced MPPT<sup>4</sup> control algorithm for maximum output power
- Mechanical brake control
- Open for full customized application software packages
